## Projects

### COVID-19 Mitigation in the Healthcare Sector – SRA 211

- Group project where we researched and analyzed the impact of COVID-19 on the healthcare sector. We then delivered a briefing of our analysis as well as providing strategies for future pandemic mitigation and healthcare policy improvement.

### Python Project – Cyber 100

- A group project that was self-directed to learn Python by completing exercises and coding modules. Then as a team we coded multiple Python projects, totaling 11 pages of code along with detailed explanations of the logic and functionality behind the code.
